- chronic fatigue syndrome
- orthopaedics and multi-trauma
- amputee management
- pain management
- wound management
- the ageing population
- *Plus pre conference workshops and much more!*

International keynote speakers include

Lance McCracken

Consultant Clinical Psychologist

Royal National Hospital for Rheumatic Diseases Bath UK

Lance McCracken is a Consultant Clinical Psychologist and Clinical Leader of the Centre for Pain Services, Royal National Hospital for Rheumatic Diseases, in Bath, where he began work in 2000. He is also an Honorary Lecturer in the School for Health and a Senior Visiting Fellow in Psychology at the University of Bath. He supervises and delivers consultation and treatment services for complex highly disabled adults and young people with chronic pain. He provides regular consultation on service design and treatment methods for chronic pain across the UK and internationally, including the US, the Netherlands, Norway, Singapore, and Sweden. His research interests include behavioral and cognitive processes of pain-related disability and the development of interdisciplinary treatment methods. He is on the editorial board of *The Journal of Pain*, *European Journal of Pain*, and *Journal of Behavioral Medicine*. He has over 95 published papers in this field over the past 18 years. In 2005 he completed a book entitled *Contextual Cognitive-Behavioral Therapy for Chronic Pain*, published by IASP.

James Malec MD

Neuropsychologist

Rehabilitation Hospital of Indiana USA

James F. Malec is Research Director for the Rehabilitation Hospital of Indiana Foundation, Adjunct Professor of PM&R, Indiana University School of Medicine, and Professor Emeritus of Psychology, Mayo Clinic. He is Board Certified in Clinical Neuropsychology and in Rehabilitation Psychology through the American Board of Professional Psychology. He is active in both lay and professional groups involved with the concerns of people with brain injuries, including the Brain Injury Association, the American Congress of Rehabilitation Medicine, and the International Neuropsychological Society. He has received a number of professional recognitions, including the Lowman Award from the American Congress of Rehabilitation Medicine for interdisciplinary contributions to rehabilitation, and the Career Service Award from the Brain Injury Association of Minnesota. He has over 100 peer-reviewed publications as well as other professional publications and continues to conduct research in brain injury rehabilitation and other areas of neuropsychology and behavioral medicine.

Plus renowned expert speakers from across Australia
